Independent Auditor's Report

To the Members of SOUTH CITY INTERNATIONAL SCHOOL

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS Financial Statements of **South City International School** ("the Company") which comprise the Balance Sheet as at 31st March, 2018, the Statement of Income and Expenditure (including Statement of other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Ind AS Financial statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS Financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and read with the Rules issued there under and the Order issued under section 143(11) of the Act.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

S. K. AGRAWAL & CO.

FAX : 033-40089905, Website : www.skagrawal.co.in

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its Deficit including other comprehensive income, and its Cash Flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, is not applicable to the Company.
2. As required by section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Income and Expenditure including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act, read with the Rules issued thereunder;

Annexure A to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SOUTH CITY INTERNATIONAL SCHOOL** ("the Company") to the extent records available with us in conjunction with our audit of the Ind AS financial statements of the company as of and for the year ended 31st March, 2018.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note on Audit of internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

FAX : 033-40089905, Website : www.skagrawal.co.in

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

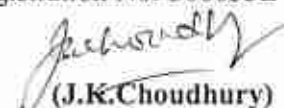

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the ICAI.

1.1 Corporate Information

South City International School (referred to as "the Company") is a Private Limited Company established in 2005 under the Companies Act applicable in India. The Company is engaged in providing exclusively educational services by way of pre-school education and education upto higher secondary school or equivalent. The Company is domiciled in India and has its registered office at 375, Prince Anwar Shah Road, Jadavpur, Kolkata – 700068.

1.2 Basis of Preparation of financial statements

a) Compliance with INDAS

For all periods up to and including the year ended 31 March 2017, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements for the year ended 31st March 2018 are the first financial statements which the Company has prepared in accordance with Indian Accounting Standards ("Ind AS") including the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. Refer to Note 2.28 for information on how the Company adopted Ind AS.

b) Historical Cost Convention

The financial statements have been prepared on going concern basis in accordance with the accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis, except for certain assets and liabilities which have been measured at fair values as explained in relevant accounting principles.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

1.3 Summary of Significant Accounting Policies

1.3.1 Operating Cycle

Based on the nature of products and the time taken between acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained its operating cycle as twelve months for the purpose of classification of assets and liabilities into current and non-current. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

1.3.2 Foreign Currencies

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the functional currency). The financial statements are presented in Indian Rupee (INR), which is the Company's functional and presentation currency.

Transactions in foreign currencies are initially recorded in by the Company at spot rates at the functional currency spot rate (i.e. INR) at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Non monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of initial transaction. Non monetary items that are measured at fair value in a foreign currency are translated using the exchange rate at the date the fair value is determined.

Foreign exchange gains and losses resulting from the settlement of transactions in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Income and Expenditure.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

1.3.3 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

SOUTH CITY INTERNATIONAL SCHOOL

Director

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

NOTES TO FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2018

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- c) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.3.4 Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities during and at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. The areas involving critical estimates or judgements are:-

- i) Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalized. (Note 1.3.6).
- ii) Determination of the estimated useful life of intangible assets. (Note 1.3.7).
- iii) Recognition and measurement of defined benefit obligation, key actuarial assumptions. (Note 1.3.10).
- iv) Recognition and measurement of provisions and contingencies, key assumptions about the likelihood and magnitude of an outflow of resources. (Note 1.3.12).
- v) Fair value of financial instrument (Note 1.3.15).

SOUTH CITY INTERNATIONAL SCHOOL

Director

SOUTH CITY INTERNATIONAL SCHOOL

Director

1.3.5 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term highly liquid investments with original maturities less than three months, which are readily convertible into cash and which are subject to an insignificant risk of changes in value. For the purpose of statement of cash flows; cash and cash equivalent, cash and short term deposits as defined above is net off outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

1.3.6 Property, Plant and Equipment

The Company has elected to adopt the carrying value of Property, Plant and Equipment under the Indian GAAP as on 1st April 2016, as the deemed cost for the purpose of transition to IND AS.

Property, plant and equipment is carried at cost of acquisition, on current cost basis less accumulated depreciation and accumulated impairment, if any. Cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Depreciation is provided on reducing balance method over the useful lives of property, plant and equipment as prescribed in Schedule II of the Companies Act, 2013, except Library books which are depreciated on Straight Line Method over a period of two years, Sports Equipments and Lab Equipments which are fully depreciated in the year of purchase respectively.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.3.7 Intangible Assets

The Company has elected to adopt the carrying value of Property, Plant and Equipment under the Indian GAAP as on 1st April 2016, as the deemed cost for the purpose of transition to IND AS.

Intangible Assets are recognized only when future economic benefits arising out of the assets flow to the enterprise and are amortised over their useful life of three years. Intangible assets

SOUTH CITY INTERNATIONAL SCHOOL

Director

SOUTH CITY INTERNATIONAL SCHOOL

Director

acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding eligible development costs, are not capitalized and are charged to Statement of Income and Expenditure for the year during which such expenditure is incurred.

1.3.8 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

An impairment loss, if any, is recognised in the Statement of Income and Expenditure in the period in which the impairment takes place. The Impairment loss is allocated first to reduce the carrying amount of any goodwill (if any) allocated to the cash generating unit and then to the other assets of the unit, pro rata based on the carrying amount of each asset in the unit.

1.3.9 Revenue and Other Income

Income and expenditure are recognized on accrual basis.

Interest Income

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head 'Other Income' in the Statement of Income and Expenditure.

1.3.10 Employee Benefits

I. Defined Contribution Plan

a. Provident Fund

Contributions in respect of all Employees are made to the Regional Provident Fund as per the provisions of Employees' Provident Fund and Miscellaneous Provisions Act, 1952 and are charged to the Statement of Income and Expenditure as and when

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

services are rendered by employees. The Company has no obligation other than the contribution payable to the Regional Provident fund.

II. Defined Benefit Plan

a. Gratuity

Gratuity is a post-employment benefit and is in the nature of a defined benefit plan. The liability recognized in the balance sheet in respect of gratuity is the present value of the defined benefit/obligation at the balance sheet date, together with adjustments for unrecognized actuarial gains or losses and past service costs. The defined benefit/obligation is calculated at or near the balance sheet date by an independent actuary using the projected unit credit method. This is based on standard rates of inflation, salary growth rate and mortality. Discount factors are determined close to each year-end by reference to market yields on government bonds that have terms to maturity approximating the terms of the related liability. Current Service cost and Interest component on the Company's defined benefit plan is included in employee benefits expense. Actuarial gains/losses resulting from re-measurements of the liability are included in other comprehensive income.

1.3.11 Taxes on Income

Tax expense comprises current and deferred tax.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred tax is provided using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

NOTES TO FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2018

at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in Statement of Income and Expenditure, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

1.3.12 Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the Statement of Income and Expenditure.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

1.3.13 Borrowing Costs

Borrowing Costs include interest; amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the borrowing costs. Borrowing Costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date the asset is ready for its intended use is

SOUTH CITY INTERNATIONAL SCHOOL

Director

SOUTH CITY INTERNATIONAL SCHOOL

Director

added to the cost of the assets. Capitalisation of Borrowing Costs is suspended and charged to the Statement of Income and Expenditure during extended periods when active development activity on the qualifying assets is interrupted. All other borrowing costs are expensed in the period they occur.

1.3.14 Earnings per Share

Basic Earnings per Share is calculated by dividing the surplus/(deficit) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the surplus/(deficit) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

1.3.15 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial assets

i. Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through income and expenditure, transaction costs that are attributable to the acquisition of the financial asset.

ii. Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

- a. Debt instruments at amortised cost
- b. Equity instruments measured at fair value through other comprehensive income FVTOCI

Debt instruments at amortised cost other than derivative contracts

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

SOUTH CITY INTERNATIONAL SCHOOL

Prof. Dr. L. S.
Director

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Income and Expenditure(P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the group does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

B. Financial liabilities

i. Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, investment in subsidiaries and joint ventures, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

ii. Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Income and Expenditure

Financial liabilities at fair value through Income and Expenditure include derivatives, financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through Income and Expenditure. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the Income and Expenditure.

Financial liabilities designated upon initial recognition at fair value through Income and Expenditure are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain

SOUTH CITY INTERNATIONAL SCHOOL

Prodyot K. S.
Director

SOUTH CITY INTERNATIONAL SCHOOL

Sanjay K. S.
Director

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Income and Expenditure. The losses arising from impairment are recognised in the Income and Expenditure. This category generally applies to trade and other receivables.

iii. De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- the Company has transferred substantially all the risks and rewards of the asset

iv. Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive, discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

SOUTH CITY INTERNATIONAL SCHOOL

Director

SOUTH CITY INTERNATIONAL SCHOOL

Director

NOTES TO FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2018

or loss within equity. All other changes in fair value of such liability are recognised in the statement of Income and Expenditure.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in the statement of Income and Expenditure when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Income and Expenditure.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for doubtful debts.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year. The amounts are generally unsecured. Trade and other payables are presented as current liabilities unless payment is not due within the Company's operating cycle. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the lender for a loss it incurs because the specified borrower fails to make a payment when due in accordance with the terms of a loan agreement. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

SOUTH CITY INTERNATIONAL SCHOOL

[Signature]
Director

SOUTH CITY INTERNATIONAL SCHOOL

NOTES TO FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2018

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Income and Expenditure.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.3.16 Operating Segments

The company is engaged in a single business segment i.e. running of School.

Notes to financial statements for the year ended March 31, 2018

Note 2.20 Earnings Per Share (EPS)

Basic EPS amounts are calculated by dividing the surplus for the year attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the surplus attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

	2017-18	2016-17
Surplus/(Deficit) for calculation of Basic and Diluted Earnings Per Share (Amount in Rs.)	(1,515,803)	3,679,752
Weighted average number of shares (Nos.)	30,000	30,000
Earning per equity share		
Basic & Diluted Earning Per Share (in Rs.)	(50.53)	122.66

Note 2.21 - Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements, Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. In the process of applying the Company's accounting policies, management has made the following judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the Financial Statements.

Defined Employer Benefit plans

The cost and the present value of the defined benefit gratuity plan is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in future. These include the determination of appropriate discount rate, estimating future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. For further details refer Note - 2.25

Fair value measurement of financial instruments and guarantees

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Depreciation on Property, Plant and Equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Provisions and contingencies

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS. A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Where the effect of time value of money is material, provisions are determined by discounting the expected future cash flows. The Company has significant capital commitments in relation to various capital projects which are not recognized on the balance sheet.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Note 2.25 Employee Benefits Obligation

(I) Defined Benefit Plans

The following table summarizes the components of net benefit expense recognised in the Statement of Surplus/(Deficit) and OCI and amounts recognised in the Balance Sheet.

Particulars	Amount in ₹	
	Gratuity funded	
	2017-18	2016-17
Changes in the Present Value of Defined Benefit Obligation		
Present Value of Defined Benefit Obligation at the beginning of the period	6,854,476	4,289,018
Current Service Cost	1,420,906	1,285,079
Interest Cost	514,086	321,676
Past Service Cost	-	-
Remeasurements (or Actuarial (gains)/losses) arising from:		
- Changes in demographic assumptions	-	-
- Changes in financial assumptions	465,182	-
- Experience variance (i.e. Actual experience vs assumptions)	519,159	1,147,259
- Others	-	-
Benefits Paid	(732,618)	(188,556)
Present Value of Defined Benefit Obligation at the end of the period	9,041,191	6,854,476

Amounts Recognised in the Balance Sheet		
Present Value of Defined Benefit Obligation at the year end	9,041,191	6,854,476
(as at 01.04.2016 Rs. 4,289,018)		
Fair Value of the Plan Assets at the year end	1,883,323	1,858,095
(as at 01.04.2016 Rs. 1,145,309)		
Liability/(Asset) Recognised in the Balance Sheet	7,157,868	4,996,381

Particulars	2017-18	2016-17
Expense recognised in the Statement of Surplus/(Deficit):		
Current Service Cost	1,420,906	1,285,079
Past Service Cost	-	-
Net Interest Cost/(Income)	374,729	235,778
Net Cost Recognised in the Statement of Surplus/(Deficit)	1,795,635	1,520,857

Expense recognised in the Other Comprehensive Income:		
Return on plan assets, excluding amount recognised in net interest expense	77,983	(101,054)
Actuarial (gains)/losses due to:

Notes to Financial Statements for the year ended March 31, 2018

Note 2.25 Employee Benefits Obligation

(i) The principal assumptions used in determining Gratuity obligations for the Company's plans are shown below:

Financial Assumptions :		
Discount Rate	7.70%	7.50%
Salary Growth Rate (per annum)	5.00%	4.35%
Demographic Assumptions :		
Mortality Rate (% of IALM 06-08)	100%	100%
Normal Retirement Age (yrs.)	60	60
Attrition Rates, based on age	2%	2%

The estimates of future salary increases considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The discount rate is based on the government securities yield.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards.

(ii) A quantitative sensitivity analysis for significant assumption as at 31 March 2018 is as shown below:

	Gratuity			
	As at 31.03.2018		As at 31.03.2017	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%)	10,132,330	8,118,314	7,696,293	6,142,164
% change compared to base due to sensitivity	12.07%	(10.21)%	12.28%	(10.39)%
Salary Growth Rate (- / + 1%)	8,069,552	10,174,764	6,101,221	7,733,448
% change compared to base due to sensitivity	(10.75)%	12.54%	(10.99)%	12.82%
Attrition Rate (- / + 50%)	8,767,637	9,281,451	6,601,129	7,076,573
% change compared to base due to sensitivity	(3.03)%	2.66%	(3.7)%	3.24%
Mortality Rate (- / + 10%)	8,987,518	9,093,458	6,804,724	6,902,422
% change compared to base due to sensitivity	(0.59)%	0.58%	(0.73)%	0.70%

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Notes to Financial Statements for the year ended March 31, 2018

Note 2.25 Employee Benefits Obligation

(iii) Risk Exposure

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary overtime.

Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk : The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk : This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk : The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk : The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory Risk : Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act , 1972(as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).

Notes to Financial Statements for the year ended March 31, 2018

Note 2.26 Financial Risk Management, Objectives and Policies

The Company's principal financial liabilities, comprise of borrowings and trade payables. The main purpose of these financial liabilities is to finance the Company's working capital requirements. The Company has various financial assets such as trade receivables, loans and cash & cash equivalents, which arise directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's Board of Directors oversees the management of these risks and advises on financial risks and the appropriate financial risk governance framework for the Company. The Company's Board of Directors assures that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

A. Credit Risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company.

The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost.

The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls. Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits. Other financial assets measured at amortized cost includes security deposits, Loans given and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

a) Credit Risk Management

1. Credit Risk Rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

- A. Low Credit Risk
- B. Moderate Credit risk
- C. High credit risk

The Company provides for Expected Credit Loss based on the following:-

Asset Group	Description	Provision for Expected Credit Loss*
Low Credit Risk	Cash and cash equivalents, Trade Receivables, loans and other financial assets	12 month expected credit loss/life time expected credit loss

*Based on business environment in which the Company operates, a default on a financial asset is considered when the counterparty fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in Statement of Surplus/(Deficit).

Credit Rating	Particulars	31.03.2018	31.03.2017	01.04.2016
Low Credit Risk	Cash and cash equivalents, Trade Receivables, loans and other financial assets	32,706,113	30,150,564	32,513,530

Note 2.26 Financial Risk Management, Objectives and Policies

B. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Maturities of Financial Liabilities

The table below analyse the Company's Financial Liabilities into relevant maturity groupings based on their contractual maturities

March 31, 2018

Particulars	Less than 1 year	1-5 years	More than 5 years	Total
Borrowings	19,985,017	251,792,971	-	271,777,988
Trade Payable	748,630	-	-	748,630
Security Deposits	36,783,100	-	-	36,783,100
Other Financial Liabilities	26,355,832	-	-	26,355,832

March 31, 2017

Particulars	Less than 1 year	1-5 years	More than 5 years	Total
Borrowings	20,330,089	271,182,278	-	291,512,367
Trade Payable	791,660	-	-	791,660
Security Deposits	30,781,700	-	-	30,781,700
Other Financial Liabilities	40,317,668	-	-	40,317,668

April 1, 2016

Particulars	Less than 1 year	1-5 years	More than 5 years	Total

Note 2.26 Financial Risk Management, Objectives and Policies

C. Market Risk

a. Interest Rate Risk

The Company has taken debt to finance its working capital, which exposes it to interest rate risk. Borrowings issued at variable rates expose the Company to interest rate risk.

Interest Rate Risk Exposure

Particulars	31.03.2018	31.03.2017	01.04.2016
Variable Rate Borrowing	219,294,948	255,958,272	284,780,251
Fixed Rate Borrowing	69,931,287	70,332,470	81,361,350

Interest Rate Sensitivity

Profit or loss and equity is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	March 31, 2018	March 31, 2017
Interest Sensitivity*		
Interest Rates increase by 100 basis points	(3,036,541)	(3,436,420)
Interest Rates decrease by 100 basis points	3,036,541	3,436,420

*Holding all other variables constant

b. Price Risk

The Company's exposure to price risk arises from investments held and classified as FVTPL or FVOCI. To manage the price risk arising from investments, the Company diversifies its portfolio of assets. However the Company has not made any investments during the year and hence this is not applicable.

Note 2.27 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its activities. The Company's overall strategy remains unchanged from previous year. The Company sets the amount of capital required on the basis of annual business and long-term operating plans which include capital and other strategic investments. The funding requirements are met through a mixture of equity, internal fund generation and borrowed funds. The Company's policy is to use short term and longterm borrowings to meet anticipated funding requirements. The Company monitors capital on the basis of the net debt to equity ratio. The Company is not subject to any externally imposed capital requirements. Net debt are long term and short term debts as reduced by cash and cash equivalents (including restricted cash and cash equivalents). Equity comprises share capital and free reserves (total reserves excluding OCI). The following table summarizes the capital of the Company:

	As at 31.03.2018	As at 31.03.2017	As at 01.04.2016
Borrowings	271,777,988	291,512,367	339,640,902
Other Financial Liabilities	63,138,932	71,099,368	51,089,363
Trade Payables	748,630	791,660	675,246
Less: Cash and Cash Equivalents	3,137,381	1,341,652	2,319,952
Net Debt	332,528,168	362,061,743	389,085,559
Total capital	300,000	300,000	300,000
Capital and Net Debt	332,828,168	362,361,743	389,385,559
Gearing ratio	99.91%	99.92%	99.92%

Notes to financial statements for the year ended March 31, 2018

Note 2.28 First-time adoption of Ind AS

These financial statements, for the year ended 31 March 2018, are the first the Company has prepared in accordance with Ind AS.

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 31 March 2018, together with the comparative period data as at and for the year ended 31 March 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2016, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1 April 2016 and the financial statements as at and for the year ended 31 March 2017.

Exemptions and exceptions applied

Ind AS 101 allows first-time adopters certain exemptions and mandatory exceptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions and exceptions:

The Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value as on the date of transition. The written down value as per the Previous GAAP as on April 1, 2016 has been considered as the Gross Block under Ind AS for respective classes of assets in accordance with Ind AS 101- First-time adoption of Indian Accounting Standards.

The estimates at 1 April 2016 and at 31 March 2017 are consistent with those made for the same dates in accordance with Indian GAAP (after adjustments to reflect any differences in accounting policies)

The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions at 1 April 2016 (i.e. the date of transition to Ind-AS) and as of 31 March 2017.

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS in accordance with Ind AS 101- First-time adoption of Indian Accounting Standards.

Notes to Financial Statements for the year ended March 31, 2018

Note 2.29 Fair Value Hierarchy

The table shown below analyses financial instruments carried at fair value. The different levels have been defined below:-

Level 1: Quoted Prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

(a) Financial Instruments at Ammortized Cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

(b) During the year there has been no transfer from one level to another .

Notes to Financial Statements for the year ended March 31, 2018

Note 2.31 Standards issued but not effective

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and Companies (Indian Accounting Standards) Amendment Rules, 2018 amending the following standard:

Appendix B to Ind AS 21 Foreign Currency Transactions and Advance Consideration The Appendix clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration.

The Appendix is effective for annual periods beginning on or after 1 April 2018. However, since the Company's current practice is in line with the Interpretation, the Company does not expect any effect on its financial statements.

Amendments to Ind AS 112 Disclosure of Interests in Other Entities, Ind AS 40 Investment Property and Ind AS 28 Investments in Associates and Joint Ventures are not applicable to the Company.

Notes to financial statements for the year ended March 31, 2018

Note 2.32(a) Effect of the Transition to Ind AS

Reconciliations of the Company's balance sheets prepared under Indian GAAP and Ind AS as of April 1, 2016 and March 31, 2017 and reconciliation of the Company's Statement of Profit and Loss for the year ended March 31, 2016 prepared in accordance with Indian GAAP and Ind AS are presented below.

Amount in ₹

Particulars	Total Other Equity		Total Comprehensive Income	Remarks
	31-Mar-17	31-Mar-16	2016-17	
Balance of Other Equity/Net profit under Indian GAAP	(30,237,944)	(33,065,370)	2,827,426	
Adjustments:				
Impact of Effective Interest on Long Term Borrowings	511,194	705,073	(193,879)	Under Indian GAAP, transaction costs incurred in connection with borrowings are amortised upfront and charged to the Statement of Profit or Loss for the period. Under Ind AS, transaction costs are included in the initial recognition amount of financial liability and charged to Statement of Profit or Loss using the effective interest method.
Net Profit as per IND AS			2,633,547	
Balance of Equity/Total comprehensive income as on March 31, 2016 and March 31, 2017 under Ind AS	(29,726,750)	(32,360,297)		

Note 2.32 (b) Reconciliation of cash flows for the year ended March 31, 2017

The transition from erstwhile Indian GAAP to Ind AS has not made a material impact on the statement of cash flows.
